FOLDING BABY BATHTUB

♥ *Every Mom
is a Superhero!*

thermometer

easy folding

non-slip mat
inside the tub

shower
handset holder

drain plug

handle for carrying
and hanging

non-slip
footrests

space for bath
products

electronic thermometer

Convenient length adjustment of the temperature sensor allows you to match it to the water level.

Thanks to the thermometer, you no longer have to worry about the water overheating or cooling down. You can be sure that your baby is immersed in water at the ideal temperature for his or her needs.

adjustable *bath liner*

The bath is designed for use from the first day of a baby's life, so you can confidently use it to bathe a newborn. This activity is made easier by the included insert, which supports and stabilises the baby's position.

easy

adjustment

easy *folding*

If you like order and functionality, you will definitely appreciate the fact that the tub can be quickly folded. This makes it easy to find a place for it in the bathroom or another room.

non-slip mat inside

Give your little one stability by choosing a bath with a non-slip mat on the bottom. This is an extra safety feature that eliminates the risk of slipping and makes bathing safe.

drain plug

No more waiting for the bath to empty! Speed up the process with a drain plug. Save time and maintain hygiene during your daily ritual.

Easy opening

A close-up photograph of a baby with dark, curly hair sitting in a white bathtub. The baby is holding a silver shower handset with both hands, and water is spraying from it. The baby's skin is wet and glistening. The background shows white tiled walls and a white shower curtain with a green ring. The overall scene is brightly lit, suggesting a bathroom setting.

*space for
a shower
handset*

Tired of running to the shower while you wash your child? We have a solution for that. Neno Lucy has a special place where you can place the shower handset so that you always have it at hand.

practical *handle*

With the help of the handle, you will efficiently move Neno Lucy from room to room and then hang it on the wall.

Busy toddler on board?
Don't worry, Lucy has
non-slip feet that keep the
bath firmly planted on the
floor, eliminating the risk of
accidental slipping.

non-slip feet

locking clamps

The legs of the Neno Lucy bath are fitted with special clamps. The mechanism that locks them in place prevents the bathtub from folding accidentally during use.

neno

locking clamps provide additional stability to the bath

shelf for bath products

Freely removable shelf

Make every bath a visit to the spa! Our bathtub has a practical shelf for the cosmetics you need to care for your baby's delicate skin.

take it on the road

The Neno Lucy is lightweight and portable, so you can easily fold it up, throw it in the boot and take it with you. The bath is perfect for holidays and provides the opportunity to take care of your baby's hygiene both indoors and outdoors.

*Neno Lucy
is an excellent
helper during
trips.*

aesthetic appearance

In the case of the bath, subtle and ergonomic shapes combine with thoughtful design to create an attractive appearance that blends in with the design of any bathroom.

quick-drying insole texture

A great advantage of the adjustable insole is its mesh structure. The material does not absorb moisture, which makes it much easier to wash and dry and prevents the growth of harmful micro-organisms and fungi.

Do you dream of a bathtub that can be used not only by babies, but also by older children, and that does not take up half the bathroom after bathing? Neno Lucy is a solution that will meet your expectations.
