A close-up photograph of a woman with long blonde hair, smiling warmly as she holds a baby. The baby is wearing a light blue shirt and is drinking from a white Neno bottle. The woman's hands are visible, holding the bottle for the baby. The background is softly blurred, showing what appears to be a bed with white linens.

## *Comfortable feeding for your baby*

The perfect teat for feeding from the very first days of life. It makes bottle feeding easier, but doesn't discourage your baby from breastfeeding. The teat fits all bottles included with Neno breast pumps, as well as the Neno Bottle 150 ml, Neno Bottle 240 ml, and Neno Bottle 300 ml.

*Soft and flexible  
nipple-shaped tip*

*Mat finish to resemble  
breast skin*

*Anti-colic valve*

## *Soft and flexible tip*

Made from soft, flexible silicone that does not interfere with a baby's sucking reflex. Specially shaped design helps prevent the teat from collapsing.

# *Vent valve*

The anti-colic valve allows excess air to escape, preventing it from entering the food. This reduces the risk of colic.
